

Steven Tratt

National Sales Manager

Experience:

Steve has over 26 years of experience in the building envelope air barrier industry, including expertise in air leakage testing and weatherization materials. He has worked extensively in the custom design of building science solutions for the education, healthcare, commercial and government markets. His material expertise includes two component polyurethane foam insulating air sealants, door and window weather-stripping, fire stopping systems and air tightness testing equipment.

Steve has trained building envelope retrofit contractors in both Canada and The United States and has made numerous presentations to a wide variety of trade associations. Currently Steve is involved in organizing and presenting air barrier seminars for architects and engineers throughout Canada and the United States.

Education & Certifications:

- Construction Management, North Alberta Institute of Technology (NAIT)
